

Visiting Assistant Professor of Biology, Cell Biology

The Department of Biology at Rollins College invites applications for a **one year, sabbatical replacement, visiting assistant professor of biology position** beginning August 2017. We are seeking a broadly trained cell biologist. The successful candidate will have a demonstrated commitment to teaching excellence in a liberal arts institution. Teaching responsibilities will include cell biology, participating in our team-taught Introductory Biology series for majors, and teaching a general education course for non-science majors. Ph.D. in the biological sciences required.

Visiting Assistant Professor of Chemistry, Biochemistry

The Department of Chemistry at Rollins College, an ACS-approved, highly selective, comprehensive liberal arts college with ~1950 undergraduates, invites applications for a two-year **visiting assistant professor** position beginning in August 2017. We seek a colleague with a commitment to excellence in undergraduate teaching. The position carries teaching responsibilities (lecture and laboratory) in biochemistry, general chemistry, and potentially courses that meet departmental (organic) and college (general education) needs.

Founded in 1885, Rollins is an independent, comprehensive, liberal arts college. The campus, noted for its lakefront beauty and for its unique location, is set in the residential community of Winter Park, just 15 minutes from one of the nation's most dynamic urban centers, Orlando. Rollins enrolls approximately 3,200 students in diverse degree programs at the undergraduate and graduate level. Rollins ranks number one among 128 Southern master's-level universities in the annual rankings of "America's Best Colleges," released by U.S. News & World Report. For additional information, please visit the College [website](#).
